

# Brew X

## COFFEE CLEANING TABLETS

**B**rew **X** coffee cleaning tablets goes far beyond the competitors' efforts due to Chemlink's patented technology. Our coffee cleaning tablets simultaneously clean both the brew basket and the server urn beneath. Its one step cleaning that is also considerate of your space, time and labor constraints. Coffee drinking customers have proven to be loyal. They will pass by other convenience stores to return for their favorite cup of coffee. Great tasting coffee can and will attract new customers from competing stores. Remember that purchasing better and more expensive coffee beans will not guarantee great tasting coffee if your serving equipment isn't cleaned properly your coffee will still taste stale and bitter.

### Instructions:

1. Simply place tablet(s) in the brew basket using one tablet per gallon of water used in your system.
2. Then run a brew cycle and follow with a rinse cycle.

Note: A blue dye has been added to ensure proper rinsing.

Tip: Tablets can also be used directly in urns. Be sure to remove any residue and rinse all parts with clean water.
