

MicroBoost

HEAVY DUTY CLEANER

FOR MOP BUCKETS AND HEAVY DUTY CLEANING

Micro Boost Heavy Duty cleaning tablet is a powerful, heavy duty concentrate cleaning tablet designed for mop buckets to clean and degrease floors. Micro Boost also works as a heavy duty spray-and-wipe cleaner on surfaces unaffected by water. Use to remove dirt, oils, grease & grime from floors, walls, fuel pumps, fuel nozzle handles and a wide variety of other surfaces. In addition it is environmentally friendly.

Our patented effervescent technology enable the end user to mix a premium cleaning solution without the use of unreliable and costly dispensing machines, messy liquid portion packaging or expensive ready to use products.

We have formulated our Micro Boost Heavy Duty tablet to be able to solve many of your common needs.

Make a 3-5 gallon mop bucket and tackle tough areas on floors, tile and grout. You may also use Micro Boost Heavy Duty in a spray bottle for heavy duty applications to areas such as bathrooms, gas/diesel islands, fuel pumps, fuel hoses, fuel nozzles and trash cans.

SDS available upon request.

Our Bottles:

Our custom bottles are designed with the end user in mind. Simply remove the convenient side cap; use the easy measuring guide on the back label to add 32 ounces of **cold** water (Do not use warm or hot water, product will foam). Drop 1-2 tablets in side opening. **Do not re-cap side cap.** Allow tablet(s) to completely effervesce, about 5 minutes. Once effervescing has completed, recap and use.

For use in mop buckets simply drop two tablets into empty mop bucket, add warm to hot water. For extreme situations add 3-4 tablets to your bucket.
